

KAZAKHSTAN CLIMATE ACCELERATOR

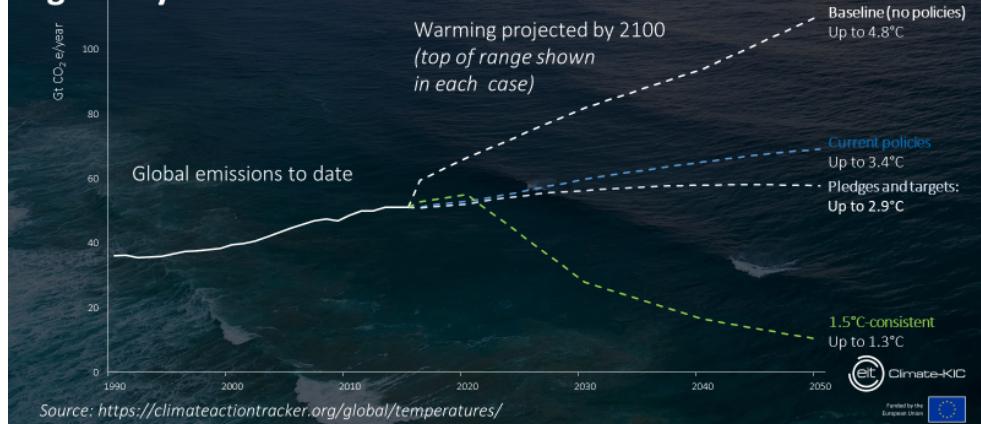

EIT Climate-KIC – is a climate innovation agency and community working to catalyse transformations using systems innovation as a key tool.

Kazakhstan ClimAccelerator represents a mentorship program for young entrepreneurs of Central Asia aiming to ‘accel’ – develop, validate and improve sustainability – of their eco-businesses and open it up for investors.

GLOBAL CONTEXT

Business-, innovation- and investment-as-usual are not delivering a **1.5 degree world**. We're not on track ... **globally**.

The climate emergency is here and demand is growing for climate action that matches the scale and urgency of the challenge.

DKU EXPERIENCE ECO-TALK BUSINESS INCUBATOR

“Eco-Talk” school provides an opportunity for the youth of Central Asia and Afghanistan to turn their eco-business ideas into sustainable business projects.

GOAL

Kazakhstan ClimAccelerator aims to offer an opportunity for young entrepreneurs of Central Asia to 'accel' their eco-businesses, improve its sustainability and make it attractive for investors.

ACCELERATOR' PROGRAM

EDUCATION:

- A) Fundamentals (Circular economy, Systems innovation, Sustainable business modelling);
- B) Validation (Marketing, Operational management skills, Financial planning, PR, etc)
- C) Scaling (Principles and approaches of start-up growth, etc)

MENTORSHIP: working through and discussing new materials and knowledge shared in the business-building sessions; Climate Impact Framework.

NETWORKING: enriching the eco start-ups with new ideas and partnerships. To be facilitated at the regional (through national and regional partners of DKU) and global levels (through EIT Climate-KIC).
